TECHNICAL SKILLS

Analytical Tools: Excel, Power BI,

Power Query

Languages: Python,R,SQL

Technologies/Frameworks:

GitHub,Pandas, NumPy,Tkinter

TECH SKILLS

- Python (Expert)
- SQL,MySQL (Expert)
- R (Intermediate)
- Data Structures
- Machine Learning

COURSEWORK

- Data Integrity
- Data Visualization
- Business Impact Analysis

AREA OF INTEREST

- Machine Learning
- Data Science

CERTIFICATIONS

- Accenture North America: Data Analytics And Visualization
- Google Data Analytics
- Data Science with python
- ISRO AI/ML Geodata Analysis

PROFILE

I am an ambitious Artificial Intelligence and Data Science student with a strong foundation in analytical tools including SQL, Python, and Power BI. My hands-on experience in data analytics projects emphasizes my ability to derive actionable insights and improve decision-making processes. I excel in data integrity and visualization, always striving to utilize data-driven solutions effectively.

EDUCATION

B.Tech - Artificial Intelligence & Data science

2022 - 2026

Erode sengunthar engineering college

Kongu national matriculation school

2021 - 2022

HSC

Veellar vidyalyaa cbse school

2019 - 2020

SSLC

PROJECTS

Hospitality Domain Analysis

The Hospitality Domain Analysis project is designed to empower stakeholders in the hospitality industry with actionable insights derived from data analytics. By harnessing the power of SQL and Power BI, this project will contribute to improved business outcomes and a better understanding of the evolving hospitality landscape

Technologies Used: SQL,Power BI

AtliQ Finance Reports

Created a 4-year P&L Report for Atliq Hardware in Excel, using Pivot Tables and DAX to analyze revenue. Automated data cleaning with Power Query, saving 4 hours, and implemented DAX measures for enhanced user experience, reducing data processing time by 50%. This enabled real-time insights for data-driven decision-making

Technologies Used: Excel,Pivot Tabel,Dax

EXPERIENCE

Edu Tantr | Data Science with Python:

JAN 2025 - Present

- Performed data variance analysis and debugged SQL queries to ensure 100% accuracy on data extraction from MySQL workbench.
- Applied advanced data cleaning and data normalization techniques to maintain data integrity and optimize data retrieval processes.
- Conducted ad-hoc analysis and designed customizable dashboards using Power BI.

ACHIEVEMENTS

1st Prize in Paper Presentation - Chennai Institute of Technology . Presented on the topic "Digital Mirror" utilizing AI technology
